

BIGG Spring Pasture Walk and Beneficial Insect Workshop

Friday 16th September 2022, 1.00-5.00 pm

Join local farmers, industry leaders and researchers to learn how pasture and hay options can improve production, including the importance of beneficial insects

Time	Topic	Location
1.00-1.50	- Mixed species pasture trial: multi-species vs single species (<i>Brett Nietschke, BIGG & Craig John, Coopers</i>) - Novel pasture species trial: clovers vs medic vs serradella (<i>Matt Denton, The Uni. of Adelaide & David Peck, SARDI</i>)	Mitchell's - 20 Hutton Vale Rd, Angaston
2.20-2.50	- Multi species hay vs straight oaten hay: what's looking better? (<i>Tracy Bonython, Bon Chevon</i>)	Bonython's - 143 Loffler Rd, Truro
3.10-3.40	- Insect activity in local multi species and single species paddocks (<i>Mike Nash, What Bugs You</i>)	Koch's (Bunyara) - 467 Shannon Rd, Moculta (off Bastion Hill Rd)
3.45-5.00	- Beneficial insect workshop: beneficial crop and pasture insects and their identification (<i>Mike Nash</i>)	Bunyara Shearing Shed
5.00	- Drinks and BBQ, followed by BIGG's AGM	

Cost: Free
