Australia's Drought Resilience Adoption and Innovation Hubs

A national map of the Drought Hubs' headquarters, host organisations, and regional nodes and offices.

Australia's eight Drought Resilience Adoption and Innovation Hubs were established in 2021 through funding from the Australian Government's Future Drought Fund (FDF), which provides secure, continuous funding for drought resilience initiatives.

The hubs bring together dynamic networks of primary producers, industry groups, researchers, government agencies, universities, agribusinesses, Traditional Owners, and others to work across the nation to strengthen the drought resilience and preparedness of Australia's farms and regional communities.

More information on Australia's Drought Resilience Adoption and Innovation Hubs:

Department of Agriculture, Fisheries and Forestry

Future Drought Fund

This program received funding from the Australian Government's Future Drought Fund.

Northern Hub · SA DROUGHT HUB · SOUTHERN NSW Innovation Hub (SUSTAINABLE AGRICULTURE, LANDSCAPES AND COMMUNITIES) · TNQ Drought Hub

SQNNSW Innovation Hub · GROWER GROUP ALLIANCE · South-West WA Drought Hub · TAS FARM INNOVATION HUB (Growing Climate Resilient Communities) · Vic Hub DROUGHT & INNOVATION

Northern Hub

Charles Darwin University
Covering all NT and WA tropical Top End and rangelands

GROWER GROUP ALLIANCE · South-West WA Drought Hub

Grower Group Alliance
Covering the Southern Rangelands, Mid West and Gascoyne Coastal Wheatbelt, and South West

SA DROUGHT HUB

Adelaide University
Covering SA's pastoral zone and low, medium and high rainfall mixed farming lands

TAS FARM INNOVATION HUB

University of Tasmania
Covering the entire state of Tasmania

TNQ Drought Hub

James Cook University
Covering the Gulf of Carpentaria to the dry west, through to the coast and north to Cape York

SQNNSW Innovation Hub

University of Southern Queensland
Covering Longreach to Dubbo and from the coast to the SA and NT borders

SOUTHERN NSW Innovation Hub

Charles Sturt University
Covering Western Rangelands, Central, Orange, Monaro and Capital, and Coastal

Vic Hub DROUGHT & INNOVATION

The University of Melbourne
Covering the entire state of Victoria

This map was prepared by the TAS Farm Innovation Hub using information provided by each of the 8 Drought Resilience Adoption and Innovation Hubs. It is now shared freely under creative commons licencing.
